

## 2, 5 and 10 times table —Speed Test

See how long it takes you to complete all of these or give yourself a set amount of time (say, 3 minutes) and see how many you can do!

Name:

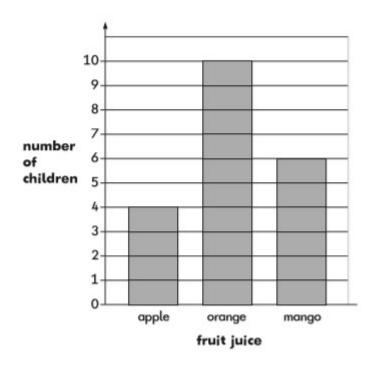

Number of Questions: 40

Testing: 2x, 5x, 10x (with inverse)

$$\frac{1}{2}$$
 of 14 =

20 children choose their favourite fruit juice.

The chart shows the results.

How many more children choose orange than apple?

(b) Another boy joins the group.

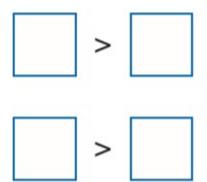

He chooses mango juice.

Add this information to the chart.

Look at these numbers.

Write each number once to make these correct.

The numbers on this number line go up by the **same amount** each time.

Write the missing numbers in the boxes.
