Chair of Governors: Mr J Collins

Following in Jesus' footsteps, we live, love and learn together as a school family to build a better world.

Dear Parents/Carers,

Voluntary Contribution for Design and Technology

I hope this letter finds you well. I am writing to request a voluntary contribution that will greatly benefit your child's learning throughout the Design and Technology curriculum. At St Peter's we strive to provide our students with a comprehensive and enriching educational experience. Design and Technology plays a crucial role in fostering creativity, developing problem-solving skills, and practical knowledge. To ensure the smooth running of these classes, I kindly request your support in the form of a voluntary contribution of £5 per child made through Parent Pay.

This contribution is intended to help cover the basic materials required for our Design and Technology projects. As our students explore various concepts and engage in hands-on activities, it is essential that they have access to the necessary resources. While the school endeavours to provide as many materials and components as possible, there may be instances where students are encouraged to bring their own materials to develop specific ideas and projects.

We are keen to maintain the quality of curriculum provision in Design and Technology and would be most grateful to those able and willing to make a small donation towards costs of material. As school budgets continue to face significant pressure due to current funding levels, any voluntary contributions (no matter how small) make a meaningful difference to our ability to sustain high-quality learning experiences. It is not an expectation and will not prevent any children from taking part but will help the school to continue to offer a high quality of education in this curriculum area.

If you have any questions or concerns, please do not hesitate to contact us. Thank you once again for your continued support.

Mrs E Davis

Year 3 class teacher

Design and Technology curriculum lead
